

# Technical Data Sheet

## External Hose Assembly

Adenus® Technologies high pressure external hose assembly is available in four different sizes, and with three different combinations of PVC inserts. Our assemblies are made with flexible and lightweight hoses that help dampen the vibrations from water running through the pipes and allows for easy installation.

### Applications

- Water
- Agricultural
- Construction
- Industrial

### Features

- Sch. 40 PVC inserts
- Stainless steel hose clamp

### Construction Materials

- Tube: EPDM synthetic rubber
- Cover: Red EPDM synthetic rubber

### Product Details

- -40° F to +210° F
- Spiral synthetic yarn
- 2” hose is braided

### SKU

- AT-HPH100 MF
- AT-HPH100 FF
- AT-125-M/M
- AT-125-F/F
- AT-HPH200-M/M
- AT-HPH200-F/F

\*M - male insert  
\*F - female insert

### Specifications

SKU	Internal Diameter (in.)	External Diameter (in.)	Weight (lbs.)	PSI (bar)	Mpa
AT-HPH100	1	1.48	0.58	300 (21)	2.06
AT-125	1 - 1/4	1.73	0.75	200 (14)	1.37
AT-200	2	2.50	1.16	200 (14)	1.37
